SUMMARY

Results-driven Full Stack Engineer with a passion for building scalable web and fintech applications. Experienced in leading development teams, designing performant APIs, and crafting seamless, user-focused interfaces. Adept at modern frameworks, cloud technologies, and agile methodologies. A proactive problem-solver with a focus on innovation, reliability, and technical excellence.

CORE COMPETENCIES

- Full Stack Development | RESTful API Design | Agile & Scrum
- Cloud Architecture (AWS, Vercel) | DevOps & CI/CD | Version Control (Git)
- UI/UX Implementation | Performance Optimization | Security & Penetration Testing

EXPERIENCE

Lead Full-Stack Engineer — Ntubed Global | 2025 – Present

- Leading end-to-end development of fintech web applications integrating payment processing, authentication, and user management systems.
- Architecting scalable Next.js and Node.js applications with MongoDB and Prisma.
- Spearheading code reviews, mentoring developers, and enforcing best practices.
- Collaborating cross-functionally to deliver secure, high-impact releases.
- Optimizing performance and responsiveness to improve user engagement.

Full Stack Software Developer — BlackInTech | 2023

- Designed and implemented RESTful APIs to enhance data flow and scalability.
- Built responsive interfaces with React.js, HTML, and CSS.
- Deployed cloud-based applications on AWS.
- Participated in Agile ceremonies and conducted penetration testing for security.

Front End Developer — Real Estate Project | 2022

- Developed a responsive property-listing web platform for academic project.
- Enhanced search functionality and collaborated on UI design.
- Maintained version control consistency using Git.

EDUCATION

Bachelor of Science in Information Technology — AAMUSTED | 2018 – 2022

Specialization: Artificial Intelligence, Data Structures, Networking & Programming.

Full Stack Software Development Certification — Codetrain | 2023 – 2025

PROJECTS & PORTFOLIO

BlackInTech — Full-Stack Job Search Platform

- Built with MERN stack integrating real-time search and filtering features.
- Showcased publicly, connecting job seekers to tech opportunities.

Portfolio Website

- Designed and deployed using Next.js, Prisma, and Lottie Animations.
- Live: upovibe.vercel.app

SKILLS & TOOLS

- Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL
- Frameworks/Libraries: React.js, Next.js, Node.js, Laravel, Vue.js
- Databases & Tools: MongoDB, Prisma, AWS, Cloudinary, Forge, Git, Figma
- Concepts: RESTful APIs, Agile Development, Cloud Deployment, Responsive Design, Penetration Testing
- Soft Skills: Team Leadership, Collaboration, Communication, Problem-Solving

ACCOMPLISHMENTS

- Selected to demo BlackInTech to a large audience for its innovation.
- Served as Hackathon Judge & Mentor, guiding project teams.
- Authored technical articles for the developer community.

LEADERSHIP & ACTIVITIES

- Open Source Contributor — active participant in community-driven projects.
- Project Showcase Organizer — coordinated developer showcases and demos.
- Freelance Developer — delivered responsive web solutions for small businesses.
- Coding Enthusiast — active on LeetCode, HackerRank, and Codility.
